

GovBook | An Overview of Our Products & Services.

Typically, public sector organisations engage with us in one of two ways:

- They purchase GovBook products (Immediate on-boarding, annual subscription only).
- They purchase a GovBook project (Agile project, annual license & bespoke support package).

This document will provide information on our products & add-ons. For more information on GovBook projects, please get in touch with your Account Manager or email: info@bookinglab.co.uk.

GovBook Products.

We've worked with our council community to develop & refine a suite of off-the-shelf products for common council use cases.

GovBook Projects.

We offer various design, development, consultancy, & support services to help you build a bespoke booking solution that meets your council's requirements.

GovBook Add-ons.

As part of our service offering, we offer a range of integrations & extensions to help you get the most out of your booking system.

Built for the public sector.

GovBook | Product Options.

Overview.

Our products come with a single-use case license & support included as standard, so the annual fees you see below are all-inclusive.

For transparency, our products are categorised based on several variables, including:

- Build complexity
- The volume of service demand &
- Level of integration
